Sales & Use Tax Revenue Report

March, 2002

Issued May 9, 2002

This report provides information and analysis related to sales and use tax collections for the fiscal year 2002. Any questions should be directed to Tom Hagerty, Deputy Finance Director, at (303) 441-3001.

As illustrated in the following chart, March 2002 actual year-to-date sales and use tax revenue has decreased by 15.40% over the comparable period in 2001.

The following excerpt from the Office of State Planning and Budgeting succinctly defines the past (and our assumptions regarding the future) status of the economy in the State of Colorado.

The Colorado economy has faltered and the evidence of an economic turnaround at the national level still eludes our state.... Economic conditions in the state declined quickly and dramatically in the fourth quarter 2001. While the events of September 11 certainly exacerbated the fall, the state economy was already decelerating at the same time as the attacks.... The timing of the Colorado economic turnaround will depend in large part on how the state's prominent advanced technology and tourism/travel sectors --- sectors that that are among the hardest hit during this recession --- fare during the coming months. The state economy was fueled by the strength of these sectors, particularly telecommunications. The precipitous economic downturn in Colorado occurred in part because of the dramatic heights to which the state had climbed.... We continue to expect a slow recovery to materialize in the latter half of 2002 and into 2003.¹

¹ "Colorado Close-up, An Economic Newsletter, *Office of State Planning and Budgeting*, March 2002, p. 4.

Weakness are seen in the following retail categories:

- "Food Stores" decreased by 3.25%

- As with many other categories, core consumer retail (apparel stores and general retail) suffered from both:
 - competition from Flatiron Crossing Mall and new retail in surrounding communities, and
 - the current recessionary environment.

The following chart details the "core consumer retail" components.

Total	4,194,717	3,777,280	(9.95%)

Motor vehicle use tax is currently showing a year-to-date decrease of 4.11% compared to 2001.

Construction use tax is showing an increase of 52.67%. This increase is due to a large number of projects being built such at the hospital expansion at 47th and Arapahoe.

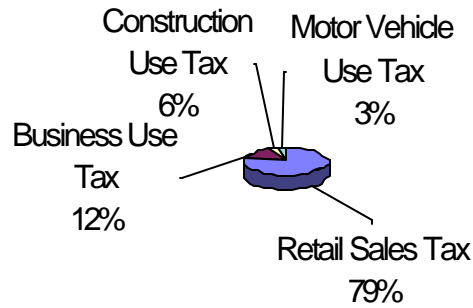

Business use tax (the complement of B to B retail sales tax) has experienced a year-to-date decrease of 37.99%.

The total net sales & use tax decrease of 15.40% for the year does not compare very favorably to the 3.14% decrease in our revised budget. Plans are being developed to decrease 2002 budgets as required to live within resource constraints.

The following graphs illustrate trends by tax category over the three-year period, 2000 - 2001 through January and the proportion of the total generated by each category of tax.
