1739 Broadway - 2<sup>nd</sup> Floor  
e-mail: [ratzelm@bouldercolorado.gov](mailto:ratzelm@bouldercolorado.gov)

**Section 1: Describe the proposed infrastructure improvement.**

**(Maximum 1 Page)**

- a) What is the project?
- b) Describe how your project will change the built environment.
- c) How will it address the identified problems in section 2.
- d) Describe the encouragement/educational component of your project.
- e) How will you collaborate with the school to ensure parents will encourage the children to bicycle and/or walk?

**Section 2: Describe the problem. (Maximum 1 page)**

- a) What is the current condition for walking and biking in your school area?
- b) What are the current risks and/or obstacles (physical or perceived) to walking and/or biking to and from your school site(s)?
- c) Complete the following information for each school affected by the proposed infrastructure improvement:
  - School name
  - Student population
  - Grades of students at school
  - Initial estimate of students who currently walk to school
  - Initial estimate of students who currently bike to school
  - Initial estimate of number of students who will benefit from the proposed infrastructure improvement.
- d) Describe any existing programs at the affected school(s) that educate or enhance walking or bicycling to school. It is recommended that this be completed by the principal of the school and include information pertaining to any:
  - Walking/biking/safety curriculum taught by the school and at what grade levels.
  - Frequency of and participation in Walk to School/Bike to School events
  - Programs taught by those outside the school (police, fire, walking/bicycle organizations, etc.
- e) Provide photos indicating existing conditions.
