

POSSIBLE CONSTRUCTION MITIGATION TECHNIQUES/ GOALS FOR CONSTRUCTION MITIGATION

Construction Phasing

- Minimize the construction period to the extent practical
 - Possible incentives and disincentives in construction contract
 - Collaborate with construction community during design, to determine the best way to reduce both time and money with the construction phasing
- Minimize the construction area disturbances to the extent practical

Communications Tools that may be used:

- Project Signage
 - Electronic Message Boards/Variable Message Signs
 - Orange-Colored Cone Zone Signs
 - Traffic Cameras to Monitor Traffic
 - Project signs with construction countdown and business access information
- General Project Information
 - Project Webpage
 - Commercials on television, including Channel 8
 - Newspaper advertisements
 - Bus boards
 - Monthly check in meetings with area businesses
- Timely information
 - Weekly Cone Zone press releases
 - Information on project webpage and Cone Zone webpage
 - Project Email Group
 - Flyers to businesses

Suggestions from the community

- All ideas will be considered and evaluated during the remaining project design time
