ALL Commercial Accounts *MUST* complete a Water System Check to be eligible for outdoor rebates, items 1 through 5.

Water System Check

I, the undersigned, do hereby declare the following statement to be true: I have personally inspected the irrigation system at the address below and attest that it does comply with the following Water System Check Standards on the date of my inspection and work:

- 1) There are no broken or missing irrigation heads on any irrigation zone.
- 2) The master valve is operating properly and not leaking when the system is off.
- 3) The measured operating pressure of the system averages 55 psi or less.
- 4) The system has an approved backflow prevention device in working condition.

Date of Inspection: _____ Address of System: _____

Name (print): _____ Signature: _____

Company, Address and Phone Number: _____

2008 REBATE PROGRAM- APPROVED PRODUCTS AND SERVICES

OUTDOOR

Smart Controllers. To be eligible, controllers must include all the following features:

1. A 'Seasonal' or 'Budget' adjustment control.
2. An ET-, Weather-, or Soil Moisture-based control- that matches watering schedules to actual weather patterns.
3. Programmable for multiple programs, stations, and start-times.

Rotator Heads or Nozzles. These heads are designed to replace spray heads and deliver precipitation that is matched, with lower flow rates, more even coverage and less runoff.

Drip Irrigation Systems. All main lines, piping, emitters, pressure regulators, filters, flush valves, backflow preventers, and up to 2 battery-operated timers per system. Emitters must be rated at 15 gallons per hour or less.

Soil Amendments. Any commercially-produced compost product. NO MULCHES.

Irrigation System Audit. To be eligible, it must be performed by an Irrigation Association-certified auditor. (See list on Web site.)

Water System Check. To be performed and completed by any qualified individual.

INDOOR

Clothes Washers. Only CEE-approved machines are eligible for rebate. (See list on Web site.)

High Efficiency Toilets. Only units that have dual-flush operations and/or rated to use 1.28 gallons per flush or less are eligible. (See list on Web site.)

Waterless or low-volume Urinals. Units using 0.5 gallon per flush or less are eligible.

Process Water & Other Appliances. See the Denver Water website for typical Comm product and service rebates. The Boulder WCO will offer a reduced percentage of those rebate types.

PRODUCTS OR SERVICES MAY BE PURCHASED FROM ANY QUALIFIED VENDOR UNLESS OTHERWISE SPECIFIED.
