

# UHGID Parking Study: Preliminary Parking Utilization Results

The UHGID Parking Study provides an inventory of the existing on-street and off-street parking supply available to the public within UHGID. The following charts show the results of the parking utilization study completed on Saturday 11/3, Wednesday 11/7, and Thursday 11/8. In addition to the utilization study, a Pleasant Street Lot survey was conducted during two November weekdays to learn more about the parking behavior of lot users. The results of the survey and the parking utilization study will be summarized in a December 2018 memo.
